

TIERS *To That*

EAT, DRINK, SHOP, STAY! UPGRADE YOUR STATUS LEVEL

The Club One™ Tiers to That promotion is available for participation at Circa Resort & Casino, the D Las Vegas, and Golden Gate Hotel & Casino.

Tiers to That allows guests to elevate their tier status by earning tier credits through slot and table play, retail spend, and hotel stay purchases! Earned tier credits will contribute to moving a guest from Gambler, to Maverick, then Legend.

For every \$5 spent on retail and hotel stays, Club One members will receive 1 tier credit. Tier credits earned from slots, tables and keno are rewarded based on play.

Participating guests Club One card must be inserted into a slot/video poker machine or presented to a table games dealer to receive tier credits. Participating guests can earn tier credits by bringing their retail itemized receipts to Club One. Participating guests Club One card must be provided during the creation of the hotel reservation or at check-in to receive tier credits.

Retail itemized receipts presented to Club One must be legible. Only pre-tax totals will be used when calculating tier credits earned – tax and gratuity will not be included. Monthly Club One food offers and earned comps dollars will also be excluded when calculating tier credits. All hotel room charged receipts including all retail and restaurant stops will be accepted.

After the receipt is presented and processed by a Club One team member, the receipt will be stamped with a Club One logo stamp shown here:

Points earned from retail receipts will be added to the guest's account immediately by a Club One representative.

Once a guest departs from their hotel stay, all points earned from room expenses not covered by a comp at check-out will be automatically added to their account the following Thursday after their exit.
